

August 2019

**CLAWSON PUBLIC SCHOOLS  
ASBESTOS HAZARD EMERGENCY RESPONSE ACT (AHERA)  
2019 NOTIFICATION**

The Environmental Protection Agency (EPA) requires that each year, district workers and building occupants receive notification about asbestos activities such as response actions and inspections. The purpose of this correspondence is to meet those requirements and familiarize you with the asbestos related activities that have been conducted in Clawson Public Schools during the past year.

**MANAGEMENT PLANS**

In 1988, Clawson Public Schools contracted with an environmental firm to conduct inspections for asbestos containing material (ACM) within all district owned buildings. This information was then compiled into Asbestos Management Plans. These Management Plans are located in the administrative office of each building and are available for review. A copy of each building management plan is also located in the Administration Building.

**SURVEILLANCE ACTIVITIES**

The AHERA regulation requires surveillance of the condition of ACM every six months and Reinspections every three years. The next periodic surveillance will be conducted in January, 2020. Since the last Reinspection was conducted in 2018, the next Three-Year Reinspection will be conducted in September, 2021. Both of these surveillance activities will be included as part of the building's Management Plans.

**ASBESTOS ABATEMENT**

Clawson Public Schools has conducted minor asbestos abatement within its facilities in the last year.

When asbestos is disturbed in our District, it is performed by Michigan Licensed Asbestos Abatement Contractors and managed by Nova Environmental, Inc., the districts environmental consulting firm.

All documentation regarding previous asbestos abatement projects, including air testing results, is available for review in each building file and at the Administration Building.

For more information, contact Mr. Jamie Stottlemyer at james.stottlemyer@clawsonschools.org.
